**RO-BOIS-TIC** is a panel processing company that has completely automated its processes through robotics. We can help you by:

Increasing your **capacity** of processing raw materials such as:

- Particle board/MDF laminated with melamine or wood
- Plywood (such as Russian Birch)

Providing superior finish **operations** such as:

- CUTTING and DRILLING with a CNC router (up to 5'x9')
- EDGE BANDING up to 3 mm
- DOWEL INSERTION

Delivering ready-to-assemble cabinets for your specific **industry** such as:

- Kitchen cabinets
- Office furniture
- Home furniture
